We hereby confirm that

- the above-mentioned last interface is approved to have the proofs listed below for an already closed mass balance period subsequently issued.
- this matter will be the subject of either an audit¹ during the year or, at the latest, at the next regular audit. Should the customer wish to change the certification body, this matter will be checked by us beforehand.
- the interface has been continuously certified since the time of the default issuance of the proofs. This also applies in case of a previous change of the certification body.

¹ The audit does not necessarily have to be carried out on site and can be carried out before or after the import of the relevant proofs.
